Why Us?

Rich Drafting Experiences

From drafting annually a great number of domestic and outgoing IP applications in China, the IP attorneys have developed a better understanding of the technology and patent, trademarks, copyright and accumulated rich experiences in responding to the government.

All-around Communication and Training

In order to continuously improve the capability of the IP attorneys, the firm carries out internal problem seminars and trainings on a routine basis. The firm also continuously invites outside experts to conduct trainings or seminars on examination rules, drafting and prosecution skills, as well as technical background education.

Flexible Working Languages

Our IP attorneys and engineers are proficient at more than one foreign language, being capable of handling patent applications in English, Japanese, German and Korean. The firm has in house English, German and Japanese translators in addition to the patent attorneys and engineers.

Sound Quality Supervision

Sound and consummate quality supervision mechanism. The Quality Supervision Division formed by senior and experienced IP attorneys is responsible for checking the drafting, translation and responding to OA so as to further guarantee the excellence of every application, meanwhile giving feedback to the IP attorneys so as to enhance their capability and sense of responsibility.

Comprehensive Cooperation of Legal Group

Our legal group provides proactive representation for clients who wish to enforce their rights through administrative and court proceedings. Working closely with our patent and trademark attorneys, the group has obtained successful results for our clients. The group also works closely with the relevant government officials and public notaries for the promotion and development of client's cases.
